

# SPONSORSHIP OPPORTUNITIES

11<sup>th</sup> March 2025

## Blue Economy through Aquaculture

Join us at the Aquatic Conference.

A place where innovative ideas, experience and deep insights come together to advance our understanding of the aquatic supply chain of fish and shrimp production in warm water conditions.

It is a unique platform where researchers, industry leaders, and government officials come together to exchange knowledge, foster collaboration, and drive innovation in the heart of aquaculture growth.

Bangkok, Thailand
